

80/20 SELECTTM

Enhanced coverage and penetration

**PRINCIPAL
FUNCTIONING AGENTS**

Proprietary blend of
nonionic surfactants
and humectants

% ACTIVE INGREDIENT
80%

FORMULATION
Concentrate

MODE OF ACTION
Nonionic surfactant

RESTRICTED USE
No

EPA REGISTRATION
N/A - All ingredients are
exempt from tolerance
under 40 CFR 180

SIGNAL WORD
Caution

PACKAGING
4 x 1 gal, 2 x 2.5 gal

FOR USE WITH
Fungicides
Herbicides
Insecticides

80/20 SelectTM is a high quality, general purpose nonionic surfactant that can be used in most situations. Whether spraying insecticides, fungicides or herbicides, **80/20 SelectTM** will improve their performance. Lowers the surface tension of the spray mix, allows for greater contact area. Also works to penetrate hydrophobic surfaces, ensuring the delivery of the active load to the target.

PRODUCT BENEFITS

- No chemical interaction with actives
- Assists with penetration
- Allows for uniform delivery of spray mix
- Improves herbicide retention
- Increases coverage

How it works

Our surfactant is designed to help spread and penetrate turf protection chemicals into target surfaces. When added to the spray mixture, **80/20 SelectTM** will increase the wetting ability, provide more uniform distribution on the leaf surface, and improve retention. It just simply increases performance!

Application rates

Applications	Amount per 25 gal of mix	Amount per 100 gal of mix
Insecticides	2 fluid ounces	3 to 8 fluid ounces
Fungicides	2 fluid ounces	3 to 8 fluid ounces
Herbicides	4 to 8 fluid ounces	1 to 2 pints
Acaracides	2 fluid ounces	3 to 8 fluid ounces
Defoliants	4 to 8 fluid ounces	1 to 2 pints
Dessicants	4 to 8 fluid ounces	1 to 2 pints
Wettable powders	4 to 8 fluid ounces	1 to 2 pints
