N/A
Food-grade components

RESTRICTED USE
No

SIGNAL WORD
None

PACKAGING
Turf Marker Green
4 x 1 gal

Turf Marker Blue
12 x 1 qt, 4 x 1 gal,
2 x 2.5 gal

FOR USE WITH
Tank mixes including,
but not limited to:

Herbicides

Fungicides

Insecticides

Fertilizers

Turf Marker products dissipate quickly in wet and dry weather and mixes completely with water soluble pesticides and fertilizers without affecting chemical efficacy. Versatile and easy-to-use, they are non-toxic spray pattern indicators for turf and ornamental, aquatic, industrial, municipal, utility, and rights-of-way use only. **Turf Marker** products show applicators where they have sprayed and will help avoid costly oversprays and skips.

Directions for use

Shake well before using. **Turf Marker** application rates will vary depending on turf color, turf height, and spray application rates. For optimal rate application, experiment with the volume of spray solution and rate to determine what is functional and economical.

Suggested application rates

16 - 24 ounces per 100 gallons (190 mL per 100 liters) of spray solution treated.

For smaller spray applications using backpacks and small sprayers, use 2 - 3 ounces per 3 gallons (50 - 75 mL per 10 liters).
